## Harris Community Wheels

The purpose of the charity is to provide wheelchair accessible transport to vulnerable and disabled people in the community of Harris - people with disabilities and wheelchair users, to enable them to attend Day Care, Respite Care, Appointments and other activities in order to aid mobility, alleviate discomfort, reduce isolation and improve their quality of life.

It can also provide transport for young people in the community to enable them to access educational and sporting activities.

We do not charge for the use of the vehicle but would encourage making a donation in line with the mileage incurred.
